

RESULTS OF THE ON-LINE POLL ON ABANDONED INFRASTRUCTURE

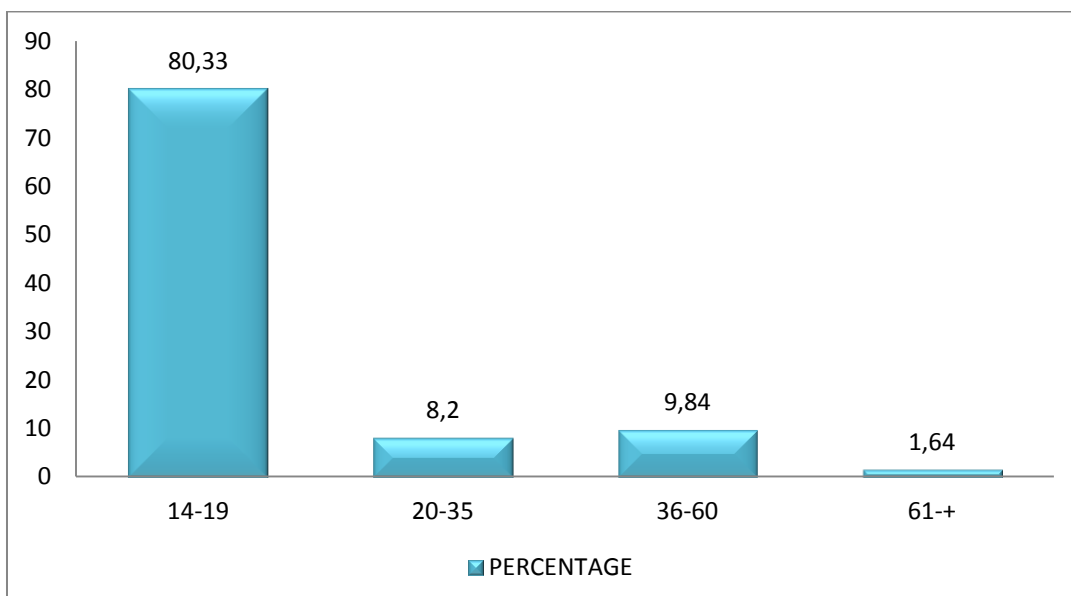

Students of „Srednja škola Koprivnica“ who are taking part in the Erasmus+ project „European entrepreneurs of tomorrow“ have, through the 2nd activity, done an on-line poll on abandoned infrastructure.

The on-line poll was completed by 61 people, and the results are as follows:

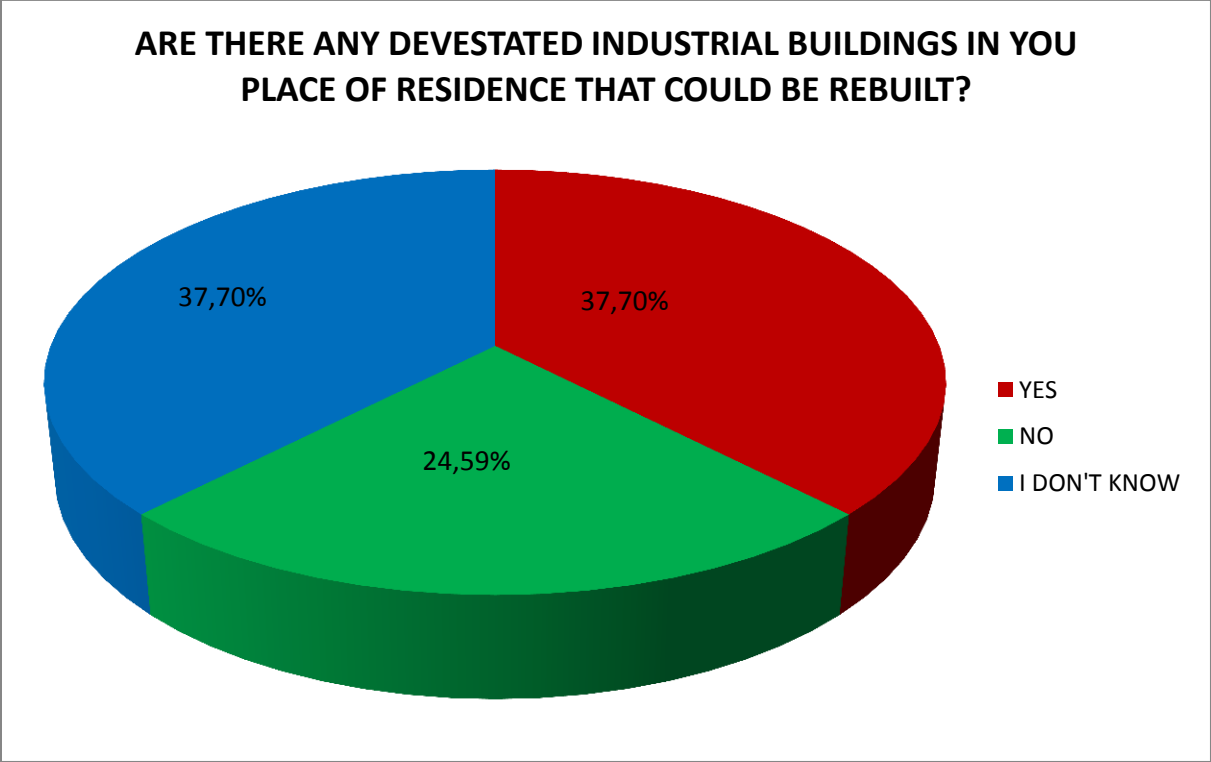

Out of the 61 people, 36,84% are male, while 63,16% are female.

80% of people who took the poll are in the high school age range.

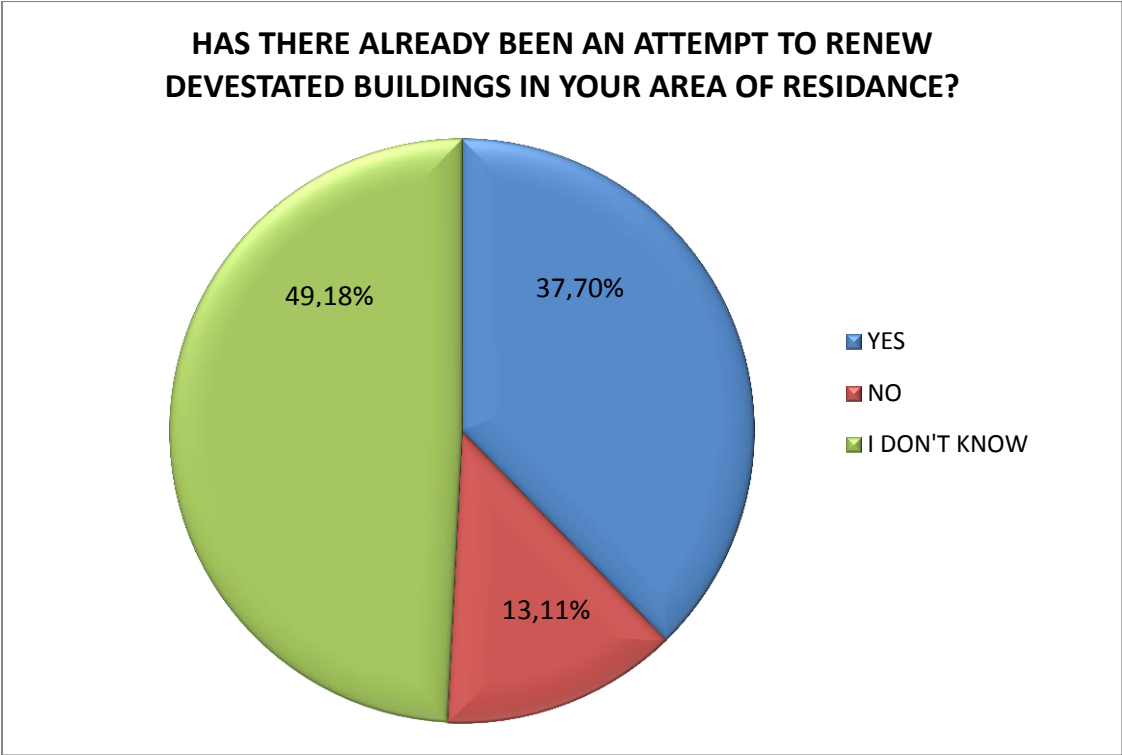

When asked the question „Are there any devastated industrial buildings in your place of residence that could be rebuilt?“ , people responded with:

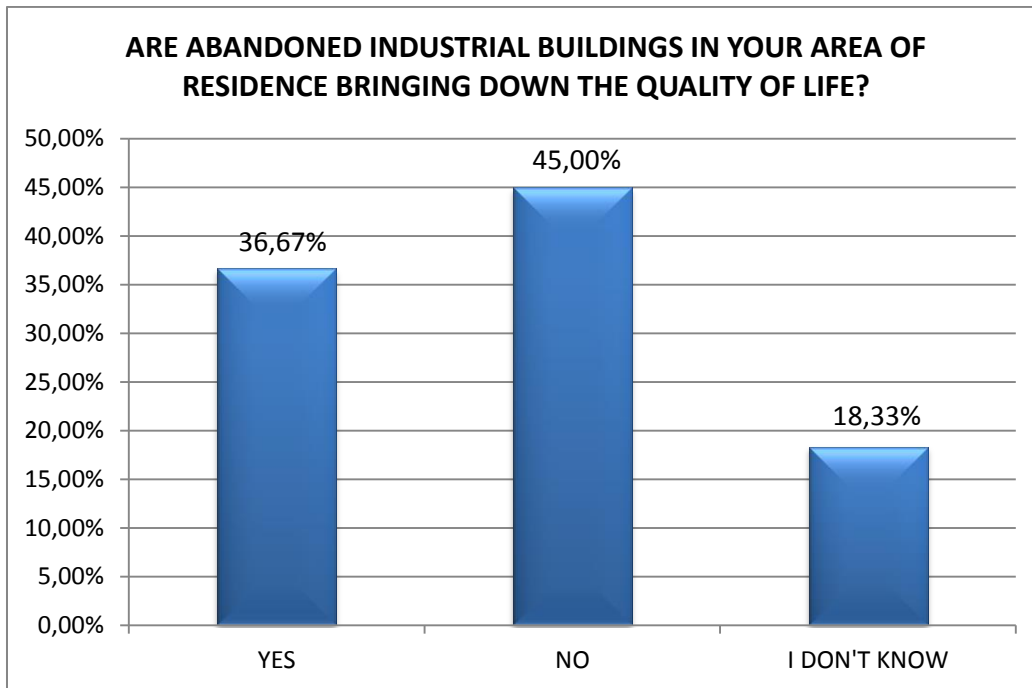

People who answered with YES also listed some buildings that they consider to fall under the „devestated buildings“ category.

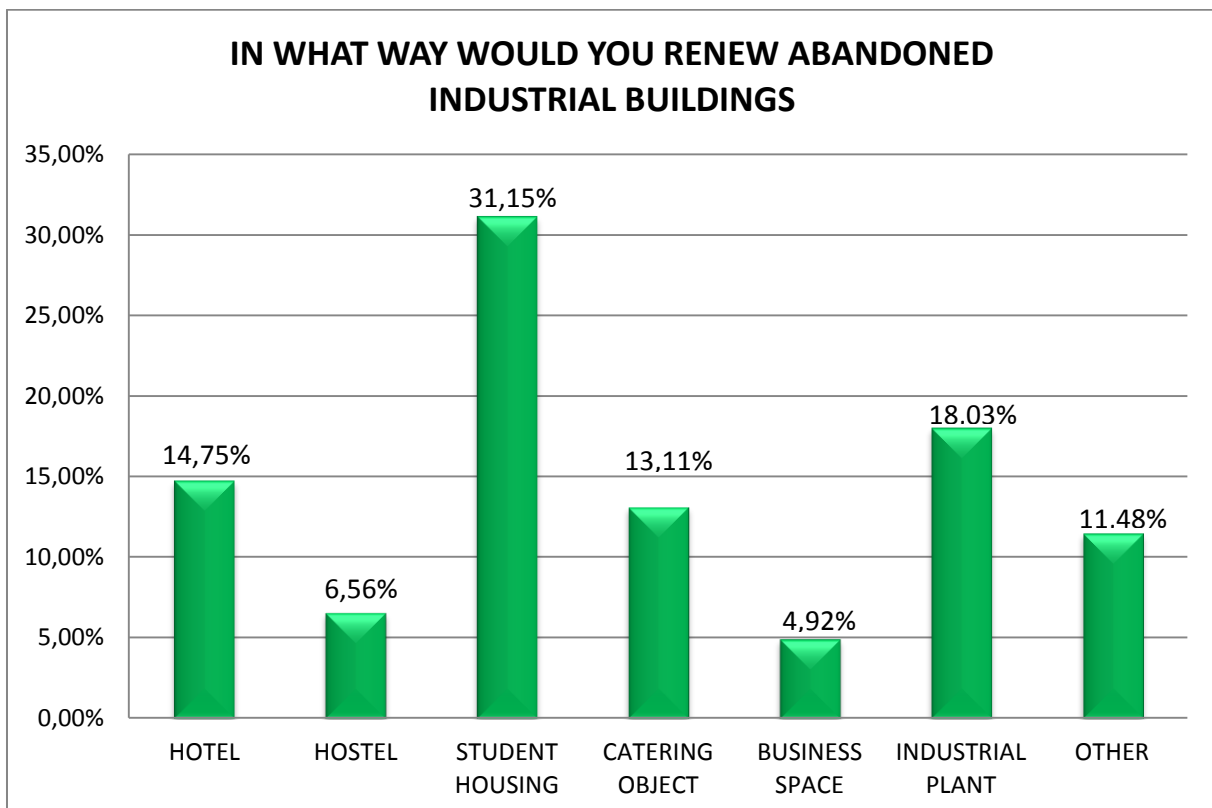

On the question „Has there already been an attempt to renew devastated buildings in your area of residence?“ , the results were as follows:

On the question „Are abandoned industrial buildings in your area of residence bringing down the quality of life?“, people answered with:

When asked „In what way would you renew abandoned industrial buildings?“, people gave the following answers:

And lasty, when asked „Would you like to participate in the action of renewing abandoned industrial buildings?“, people responded with:
